EDUCATION

Gyan Ganga Institute of Technology and Science   Oct 2022 – Jul 2026 (expected)
B.tech (Computer Science and Engineering)

XII (CBSE) Kendriya Vidyalaya R.D.S.O (Lucknow)

SKILLS

Programming Languages : C++, Python(basic), Javascript, Typescript(learning)

Frontend Technologies : HTML, CSS, React.js, Next.js(learning), Tailwind, Redux, Zustand, Tanstack query

Backend Technologies : Node.js , Express.js, Mongodb, Mongoose, Redis

Other Technologies : Git-Github, Docker(learning), Zod, Render, Vercel, BullMQ

PROJECTS

Jobify – Interview Environment Platform | Github   Sept 2025 - Present

- Developed a web-based platform that streamlines recruitment by managing job postings, conducting AI-assisted interviews, and enabling real-time candidate evaluation.
- **Tech stack :** React.js, Node.js, Express.js, MongoDB, Mongoose, Redis, Socket.io, Stream SDK, Redux, Tanstack query, Shadcn UI, Monaco Editor, OpenAI API, BullMQ, Zod.

Code-Igniter – Real-Time Collaborative Coding Platform | Github   Feb 2025 - March 2025

- Developed a real-time platform for coding collaboration, eliminating the need for screen-sharing or lengthy calls.
- **Tech Stack :** React.js, Tailwindcss, Node.js, Express.js, MongoDB, WebRTC, Socket.IO, Monaco Editor, Piston API, OpenAI API, TLDraw(whiteboard). Passportjs.

Code-Cortex – LMS Platform for coding Courses | Github   April 2025 – May 2025

- Built a full-stack Learning Management System enabling users to buy and sell courses with a seamless, responsive experience.
- **Tech Stack :** React.js, Node.js, Express.js, MongoDB, Redux, Stripe API , shadcn/ui.

ACHIEVEMENTS

- Secured 3rd place in a college-wide BGMI Esports Tournament (Team Strategy & Coordination)
- Regional-Level Cricket Player (Represented School Team)
- Lead Developer in 2 Hackathons (Major Project Contributor)

INTRESTS

Web Development, Competitive Gaming (Esports), and Cricket
